

# Year 6 Home Learning and Homework information- Friday 9<sup>th</sup> November

<b>Maths</b>	<b>English</b>
<p>Next week we will be revising a range of different concepts as well as focussing on long division.</p>	<p>This last week we had a fantastic week looking at WW1 and the impact it had on both men and women. The children created some excellent fact file information packs and studied both Wilfred Owen and Jesse Pope's poetry. By the end of the week the children wrote a fantastic essay answering our history question.</p> <p>Next week we will be looking at That Spot by Jack London, a short story written in 1908 about a dog that the narrator would love to leave behind!</p>
<b>Homework</b>	
<p><b>Maths:</b> To solve short division calculations. Challenge 3 children: In your book, draw how division works, using some of the ways we have shown (counters and sharing).</p>	<p><b>English:</b> This week we have been learning all about the impact that WW1 had on both men and women but we haven't had a chance to look at what the impact was on animals. This week's homework is for you to research this: What was the impact of the war on animals? You can create a fact file in any way you feel would best suit. Remember sub-headings, images with captions and lots of facts and information.</p> <p>Both home works are due in on Tuesday (or Monday!)</p>
 <b>Spellings due on Friday.</b>
