

# Y5 Home Learning

Week beginning: 24<sup>th</sup> February 2020

Your child will be given time to write their homework in their diary. Also, they should be keeping a record of their reading. If you have any concerns about their learning or homework please do not hesitate to come and talk to me or Mrs Danton.

Please can you ensure that your child comes to school with the correct equipment. They should have with them a pencil case(pens and pencils), reading book and their school diary. Children are still coming to school ill-prepared for the school day.

## Spellings

### Our spelling focus is the Year 5/6 key words

Your child will have already received their spelling sheet.

The children are to choose their challenge of how many spellings they will learn. If you wish them to learn more, then this is absolutely fine.

The children should then complete a minimum of 8 sentences in their spelling homework book using their chosen words. The sentences should be complex using a range of vocabulary. The spelling test will take place on the following Friday. Their new words will be set then.

**The homework should be handed in Thursdays so it can be marked ready for Friday.**

## Reading

Please encourage your child to read every day. This could be by themselves or with an adult. **Please record all reading in the diary.**

## Topic/English

We are now in the final week of the Secret Garden. The children have worked really hard on this story and the week will conclude with a film afternoon. The children will then compare their ending to the film ending.

Our work on the Mayans will continue and Miss Thomas and I will be looking to book our trip to conclude this topic.

Y5 will soon be starting our class production. The children will be able to audition for the variety of roles on offer.

This have half term we will focus on online safety and creating blogs.

## Mathematics

### Key Concept

Convert between different units of metric. Measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)  
Solve problems involving converting between units of time

The homework this week will focus on a variety of mathematical concepts.
