

## Year 5 Home Learning

Week beginning 28<sup>th</sup> September 2020

In our maths lessons, we have been looking at comparing numbers to 1 000 000 using the greater than and less than symbols. We have also been looking at number sequences eg what would the next three numbers in this sequence: 180 000, 190 000... could you please spend some time this week revising number sequences like this? I have assigned a task on mathematics to partition larger numbers.

This week's spellings are on our home learning page and their quiz is on purplemash. We have been doing a lot of work on apostrophes for possession and contracted words this weeks. It is something that as a class, we find tricky. To help with this, I have assigned a task on their home learning page.

Homework is due on Friday 2<sup>nd</sup> October

That's all for this week. As always, thank you for your continued support and if you need to get in contact with me, catch me at the gate at the end of the day or phone through to the office.
