

## Year 5 Home Learning

Week beginning 16<sup>th</sup> November 2020.

This week in maths we have been looking at fact families, multiples and factors. On mathematics, I have set two tasks- one is on fact families, the other is on multiples. Can you also encourage your child to continue developing their multiplication fluency at home?

During our English lessons we have been focusing on subordinating clauses. I have set a quiz on purplemash for the children to have a go at. I have also included a subordinate and main clause sheet on the home learning page. Spellings are on the home learning page and there is a quiz to go along with these on purplemash.

That's all for this week. As always, thank you for your continued support and if you need to get in contact with me, catch me at the gate at the end of the day or phone through to the office.
