

Year 5 Home Learning

Week beginning 30th November 2020.

I hope you enjoyed Year 5's second sharing assembly. They are having so much fun creating them in this way.

For maths homework this week I have set 2 tasks on mathematics - multiplying and dividing by 10, 100, 1000. Could you please also ensure that your child is practicing their times tables? Fluency in these is vital in maths, particularly as we begin to move onto trickier topics.

During our English lessons, we have been writing cinquain poems. For their English homework this week I would like the children to write a cinquain poem on a topic of their choice. I have put some pictures on the home learning page to give them inspiration.

As always, spellings are on the home learning page along with the quiz on purple mash.

Over the next few weeks, we will be working on our design and technology project. Could I please ask that you save any cardboard boxes and start sending them in with your child - about 2 or 3 boxes each would be great. I will be collecting too so don't worry if you don't have enough.

That's all for this week. As always, thank you for your continued support and if you need to get in contact with me, catch me at the gate at the end of the day or phone through to the office.

Best
Miss McVeigh
